

PRODUCTECH

Overview: Productech is an American product development and distribution company founded in 2015, headquartered in Miami, Florida. Starting with a team of five, it rapidly expanded, launching multiple brands and products within its first year. Today, Productech manages a portfolio of over 30 products across various categories, emphasizing innovation, durability, and affordability. The company excels in market research, product design, performance marketing, and global logistics, partnering with major online platforms like Amazon, eBay, and Walmart to reach customers worldwide.

Mission: We are the creators of innovative, insight-based electronic solutions that improve the everyday life of our customers.

Vision: We aspire to be known as the company that launched hundreds of innovative, insight-based electronic solutions that enable our customers to enjoy technology and make their lives better.

TREBLAB

TREBLAB, an American wireless audio brand, was created by passionate audio enthusiasts with 10+ years of professional experience and a genuine love for exceptional sound.
