

3615-1 RAST 5.0 connectors

For a SOLA boiler controller

RAST 5 connector for indirect mating, with screw terminal, lift clamp and protection against misplacing.

The 3615-1 product line was designed with boiler controllers in mind. This is the connector specified by Honeywell for the SOLA line of boiler controls. Lumberg is known as “Home of the RAST Connector” for launching the RAST standard for appliance specifications. Lumberg brought the first RAST 5.0 connector to the market in 1986 and this standard is more relevant than ever.

Features:

RAST uses insulation displacement contact (IDC) technology eliminating the need to cut, strip, or crimp individual wires.

- Intended for furnace control wiring harnesses
- Keyed for the SOLA controller series.

Variants:

		Lumberg part #	DK #
J4	Pins 1-6	3615-1 06 K129	5405-3615-106K129-ND
	Pins 7-12	3615-1 06 K130	5405-3615-106K130-ND
J5		3615-1 07 K01	5405-3615-107K01-ND
J6	Pins 1-4	3615-1 04 K185	5405-3615-104K185-ND
	Pins 5-8	3615-1 04 K188	5405-3615-104K188-ND
J7		3615-1 07 K48	5405-3615-107K48-ND
J8	Pins 1-6	3615-1 06 K127	5405-3615-106K127-ND
	Pins 7-12	3615-1 06 K128	5405-3615-106K128-ND
J9		3615-1 07 K59	5405-3615-107K59-ND
J10	Pins 1-4	3615-1 04 K187	5405-3615-104K187-ND
	Pins 5-8	3615-1 04 K186	5405-3615-104K186-ND
