

Press Release Quick Tips

NEW LED PANEL MOUNT INDICATOR SERIES FROM VCC PROVIDES EXCELLENT VISIBILITY

Distribution Date: September 14, 2016

Product Name: 1092 125 VAC LED series

Product Description: 0.500" LED Panel Mount Indicator Wire Leads / Tab Terminals

Key Markets/Applications:

- Industrial
- Transportation
- Food Service
- People Movers
- Medical Equipment
- Maritime
- Oil and Gas Industry
- Manufacturing
- Automation & Control
- Transportation Dashboard
- Electrical Control Panels

Key Benefits	Product Specifications
• Offered with a high brightness LED which delivers excellent visibility and achieves full brightness in microseconds - even in daylight viewing conditions • Snap in mounting makes installation easier and reduces assembly time and cost • Perfect choice for either new designs or upgrading existing applications due to its long lifespan, low energy consumption, fast on/off and low heat generation • Shock and impact vibration resistant offered with speed nut accessory which improve the reliability of the equipment. • Water, dust and oil resistant offered with O-ring gasket accessory which maximize life expectancy of the equipment and broad applications opportunities.	• Now available in operating voltage of 125VAC • Front panel snap-in. Snaps fit into 0.500" (12.7mm) panel hole requires no additional hardware • High brightness LEDs for daylight viewing • Four different lens style available: Hi Hat, Hi Dome, Semi Dome and Small Dome • Offered with wire leads (4.4"/4.8") or tab terminal (0.187" x .020") • Offered in Red, Green or Amber LED color • Bezel finish: Polished stainless steel • Accessories: ○ push-on speed nut to secure in shock and high impact vibration applications ○ O-Ring Gasket to secure for water, dust and oil tight applications • Life Expectancy: 100,000 hours • Compliant with RoHS and REACH requirements • cULus listed
