[LeapX Application](#)

Why TEKTELIC's COMFORT is the best solution on the market?

High-quality

High sensitivity to moisture and excellent Radio Frequency performance

Keeps property safe

24/7 monitoring and instant alarm in case of detecting any leak

Cost Effective

Customers state **506% ROI** estimating prevented losses using **TEKTELIC** solutions

Long Lasting

Low power consumption ensures **10+ years** of battery life

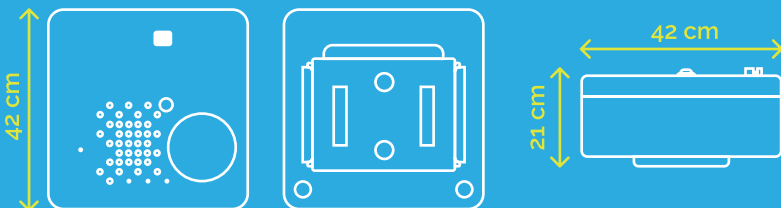

Easy to use

Simple deployment, self-calibration, easy QR-code onboarding ensures carefree user experience

Suitable for any use case

Small device size is optimal for deployment in any space

Steps to your property protection

1

Download LeapX
App & scan QR
code to add device

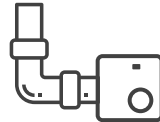

2

Configure device
parameters
in LeapX

3

Place the COMFORT
in potential leak:
pipes, boilers, or
HVAC systems

4

Track of precise data
and battery status
conveniently in
LeapX or your App

5

Get an instant
alert in case
of a leak

6

Take quick action
to minimize water
damage and lower
repair costs

COMFORT SENSOR IN ACTION >

COMFORT's Applications

In-building areas near **drain pipes and plumbing**, alerting of leaks to floors below

Water supply lines to detect water leaks from suspended hot or chilled water pipelines

Critical equipment to detect water ingress into electrical pits, trenches and other important areas

Ensuring **HVAC** units stay leak-free

Invisible protection under **sinks, dishwashers** and more

and a lot more
